Able to effectively self-manage during independent projects, as well as collaborate in a team setting.

Employment History

Web developer, MYITEDU.LCC, Brooklyn NY

MAY 2021

"My primary responsibility is to develop and maintain web applications and websites for MYITEDU. LLC. I utilize a variety of technologies, including HTML, CSS, and JavaScript, to create user interfaces and ensure an appealing design. Additionally, I work with the jQuery library to add interactivity and use Laravel and PHP to build robust backend logic. Interacting with the MySQL database is also within my purview, ensuring efficient data storage and retrieval. My goal is to deliver a high-quality user experience and functionality in web applications, meeting the needs of our clients."

Skills: PHP · Laravel · Amazon Web Services (AWS) · HTML · jQuery · JavaScript · CSS · Linux · Web Applications · Web Development · Database Design · Web Design

Private Business. Trade in computers and smartphones, Galaxy Electronics, Tashkent

FEBRUARY 2015 – DECEMBER 2019

"My primary responsibility involves sales of smartphones and PCs at Galaxy Electronics. I assisted customers in selecting the right devices to meet their needs and provide product information and support to ensure a satisfying shopping experience."

Web developer, Unicon.uz, Tashkent

MAY 2014 – NOVEMBER 2018

"My primary responsibilities at Unicon.uz involves leveraging a diverse skill set that includes HTML, CSS, JavaScript, jQuery, PHP, and MySQL. I design and develop web solutions, ensuring seamless user experiences and efficient data management. I'm also responsible for implementing and maintaining web applications, utilizing these technologies to create innovative and user-friendly digital solutions."

Skills: PHP · HTML · JavaScript · jQuery · CSS · Linux · Web Design · Web Applications · Web Development · Database Design

IT Specialist, Uzvtorcvetmet.uz, Tashkent

JANUARY 2008 – MARCH 2014

"Professional IT specialist with experience at Uzvtorcvetmet.uz Ensured uninterrupted operation of information systems, maintained the company's technical infrastructure, and ensured system security."

Internships

Web developer, MYITEDU, Brooklyn NY

MAY 2021

- Implemented a responsive design that ensured the web application was accessible on all devices
- Collaborated with cross-functional teams to identify customer requirements and develop technical solutions
- Developed a modern and responsive website design that increased user engagement
- Developed a secure authentication system that met industry standards for data protection and privacy
- Collaborated with other developers to ensure code consistency and ensure adherence to best practices
- Optimized database performance and reduced query time, resulting in improved user experience

Hobbies

My hobby in the realm of programming is an enchanting journey through the intricate pathways of HTML, where I carve out the structure of the digital canvas. CSS, my artistic palette, paints it with style and elegance, breathing life into each creation.

With JavaScript, the dynamic brushstroke, I add interactivity and responsiveness, making the digital world dance to the user's tune. Embracing jQuery, I refine this dance, orchestrating seamless performances.

In the vast landscape of web development, PHP stands as my trusted tool, allowing me to construct robust architectures and dynamic functionalities. Laravel, my crafting studio, provides the perfect environment to sculpt scalable, efficient, and secure applications.

SQL and databases form the beating heart of my digital realm. They store the essence of every creation, ensuring its resilience and availability.
